

CATHOLIC HEALTH CARE

Catholic hospitals and other health care organizations are unique in that they are faith-based institutions that deliver health care subject to not only all applicable laws, regulations and accreditation standards, but also to the Canon Law of the Catholic Church, including the Ethical and Religious Directives for Catholic Health Care Services published by the United States Conference of Catholic Bishops. Hall Render represents many Catholic hospitals and health care systems and has done so for over 30 years. We provide a full range of legal services to Catholic health care organizations. We have an understanding of the organizational structure, the focus on delivery of care to the poor and underserved, the religious framework within which they operate and the Catholic health care organization's commitment to the healing ministry of Christ. We also understand the unique challenges brought about by the combination of Catholic health care providers with non-Catholic providers.

AREAS OF FOCUS

- Catholic Health Care
- Catholic/Non-Catholic Partnerships
- ERDs
- Faith-based Ministries
