

FACILITIES MANAGEMENT

Hall Render's experienced health care attorneys routinely counsel hospitals and health care providers in all aspects of facilities management. We work with facilities managers, environmental services managers, compliance officers, hazardous waste personnel and risk management officers to help deliver timely solutions to complicated problems involving compliance and safety issues. Our attorneys represent hospitals and health care providers across the nation in contract negotiations, waste management practices, environmental audits, life-safety issues and infection control, in addition to a wide range of compliance matters. Our attorneys can provide assistance interpreting and complying with sophisticated laws and regulations.
